STYLISH AND AFFORDABLE PARK HOME
FEATURING CONTEMPORARY DESIGN
AND OPEN-PLAN LIVING

The Westbury is a relatively recent addition to the Omar range, but it has already been very popular thanks to its combination of style and affordability.

With a visually striking interior design theme, and Omar's hallmark quality, it strikes a keen balance between style and price point, incorporating enough visual firepower to fall in love with, whilst also providing enough of a blank canvas to make it your own.

There are two colour schemes available, the blue shown here or a neutral Cashmere theme, and vaulted ceilings are available as an optional extra.

For a simple, affordable home, there is plenty of character and interest built-in, and with a range of layouts to choose from, you can opt for a single unit, twin, one, two or three bedrooms and there's also a study in selected floorplans.

This may be one of Omar's more affordable models, but it doesn't compromise on style and quality, and as such, you'd be hard pushed to find better value for money!
