

**Mount Pleasant
Carlton, Nottingham NG4 1EZ**

**IDYLIC SIX BEDROOM FARMHOUSE SET
ON 0.75 ACRES WITH HISTORIC
PLANNING PERMISSION AND NO
UPWARD CHAIN**

Offers In The Region Of £850,000 Freehold

Old Carlton House is an exceptional and substantial detached residence set within approximately 0.75 acres, offering a rare opportunity to acquire a highly versatile home with significant development potential. Tucked away at the foot of Mount Pleasant, a quiet 20mph no-through road lined with bespoke properties, the house enjoys a peaceful setting while remaining well connected to Nottingham city centre and nearby retail amenities. Selling with added benefit of no upward chain.

Extending to around 3,200 square feet of living accommodation (excluding common areas), the property provides generous and flexible space ideally suited to modern family living or a variety of alternative uses. The house features six well-proportioned double bedrooms, including a principal suite with en-suite, alongside three bathrooms. There are three spacious reception rooms, each with patio doors opening onto the grounds, creating a bright and seamless connection between indoor and outdoor living. At the heart of the home is a large dining kitchen fitted with integrated appliances, complemented by a separate utility room.

A particular feature of the property is the abundance of natural light, with most rooms enjoying dual or even triple aspect windows, framing far-reaching panoramic views across Carlton Valley, Burton Joyce and Lowdham. The house is double glazed throughout and benefits from full mains services, including gas central heating via a combi boiler.

Architecturally, the property is both characterful and distinctive, with parts dating back to the 1790s, yet it is not listed, offering valuable flexibility for future alterations. A striking glass link connects two coach house elements, adding further visual interest. Additional features include a dedicated games room with bar, vaulted cellars beneath the principal living room, a garage, and further workshop space, providing excellent scope for hobbies, storage or business use.

Externally, the property continues to impress. The expansive grounds are laid predominantly to lawn, creating a generous and private outdoor setting with stunning elevated views across the surrounding countryside. The plot also includes the rare addition of a World War II bomb shelter, adding both character and historical intrigue. There is ample private parking for approximately six to eight vehicles, alongside an EV charging point. Importantly, there are no tree preservation orders in place and no restrictive covenants, further enhancing the site's flexibility.

The property offers outstanding versatility and could readily be adapted to suit a wide range of requirements, subject to the necessary consents. It would lend itself equally well to multi-generational living, conversion into flats, or use as an HMO, supported living facility or children's home. The house has not been previously extended and therefore offers considerable scope for enlargement, with earlier planning permission granted to increase the size to approximately 6,000 square feet.

Beyond the house itself, the grounds represent a compelling development opportunity. The plot extends to around 0.75 acres and has previously benefited from full planning permission (now lapsed) for the construction of a substantial 4,800 square foot split-level dwelling with a quad garage. In addition, pre-application discussions with the local authority have indicated the potential for a scheme of up to nine detached dwellings. In practical terms, a smaller scheme of around five high-quality homes is likely to be most favourable, particularly given that neighbouring properties achieve values in the region of £500,000 to £700,000. Supporting documentation, including architectural plans and a topographical survey, is available.

Mount Pleasant itself comprises approximately twenty properties, resulting in minimal traffic flow and a safe, established residential environment. The road is already serviced by delivery and refuse vehicles, and there is scope for widening in certain areas through vegetation management.

Old Carlton House is a truly rare offering, combining a substantial period home, a prime plot, and exceptional future potential. Opportunities of this scale and flexibility in such a setting are seldom available, and early viewing is strongly recommended to fully appreciate all that is on offer.

Entrance Hallway

10'8" x 11'4" approx (3.25m x 3.45m approx)

Composite double glazed entrance door leading into the entrance hallway comprising tiled flooring, wall mounted radiator, UPVC double glazed window, picture rail, carpeted staircase leading to the first floor landing, internal glazed doors leading off to:
