Proposal of 3 Bedroom - Room in Roof Bungalow.

The L-shaped bungalow is positioned to the north of the site with its finished floor 150mm above the mid site level. (the site rises 2400mm front to back)

Cars enter the site at low level with car garage and shelter. The bottom court allows for the cars to turn within the site boundary.

The next garden court is 1200mm higher and forms the mid site level.

The back boundary is formed by 900mm retaining structure and landscape banks.

To remove any problems of the 1st floor bedrooms overlooking the adjoining garden they have windows facing south down the site - Velux roof lights to bedroom ensuite and stair landings will be high level.

The ground floor ensuite and cloak room windows on the east elevation will be glazed with obscured glass.

The proposed materials are :-

- Brick of the Warrham Terracotta Red or Ibstock Leicester Red stock type subject to agreement of site test panel.
- Clay pantile roof.
- White or dark green windows.
- Copper clad dormer, gable end and trim

All landscape features will be natural e.g soft wood retaining logs, brick / stone paving
